SMALL ENTITY COMPLIANCE GUIDE
Assessment and Collection of Regulatory Fees for Fiscal Year 2017
FCC 17-111
MD Docket No. 17-134
Released: September 5, 2017

This Guide is prepared in accordance with the requirements of Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996. It is intended to help small entities—small businesses, small organizations (non-profits), and small governmental jurisdictions—comply with the revised rules adopted in the above-referenced Federal Communications Commission (FCC or Commission) rulemaking dockets. This Guide is not intended to replace or supersede these rules, but to facilitate compliance with the rules. Although we have attempted to cover all parts of the rules that might be especially important to small entities, the coverage may not be exhaustive. This Guide cannot anticipate all situations in which the rules apply. Furthermore, the Commission retains the discretion to adopt case-by-case approaches, where appropriate, that may differ from this Guide. Any decision regarding a particular small entity will be based on the statute and any relevant rules.

In any civil or administrative action against a small entity for a violation of rules, the content of the Small Entity Compliance Guide may be considered as evidence of the reasonableness or appropriateness of proposed fines, penalties or damages. Interested parties are free to file comments regarding this Guide and the appropriateness of its application to a particular situation. The FCC will then consider whether the recommendations or interpretations in the Guide are appropriate in that situation. The FCC may decide to revise this Guide without public notice to reflect changes in the FCC's approach to implementing a rule, or it may clarify or update the text of the Guide. Direct your comments and recommendations, or calls for further assistance, to the FCC's Consumer Center:

I. OBJECTIVES OF THE PROCEEDING

This Report and Order (MD Docket No. 17-134), adopted on September 1, 2017, and released on September 5, 2017, established a schedule of regulatory fees to collect \$356,710,992 for fiscal year (FY) 2017, pursuant to section 9 of the Communications Act of 1934, as amended (Communications Act or Act) and the Commission's FY 2017 Appropriation.¹ The schedule of regulatory fees for FY 2017 are listed in Appendix C of the *Report and Order*. These FY 2017 regulatory fees were due on September 26, 2017, and were based on the proposals in the *FY 2017 NPRM*,² considered in light of the comments received and Commission analysis.

In addition to assessing and collecting FY 2017 regulatory fees, the *Report and Order* also: 1) re-allocated 38 Wireline FTEs that worked on Universal Service Fund issues as indirect FTEs for the calculation of regulatory fees because they impacted several Bureaus and not just the Wireline Bureau; 2) re-allocated 4 FTEs from the Wireline Bureau to the Wireless Telecommunications Bureau (for the calculation of regulatory fees) because these 4 Wireline FTEs worked on numbering issues primarily impacting the wireless industry; 3) increased the Direct Broadcast Satellite (DBS) fee rate to 38 cents per subscriber to bring that rate closer to the cable television/IPTV regulatory fee rate; 4) provided some regulatory fee relief to AM and FM broadcast stations in the lowest two fee tiers because radio stations in these tiers are experiencing severe financial competition; 5) adopted a methodology change in the International Bearer Circuit fee category to include non-common carrier circuits as well as common carrier circuits in the assessment of regulatory fees; and 6) increased the Commission's de minimis threshold from \$500 to \$1,000.³

In this *Report and Order* (MD Docket No. 17-134), the Commission adopted rules that directly impacted small businesses. First, the Commission increased its de minimis threshold from \$500 to \$1,000. Fee categories with a higher number of small business regulatees which should benefit from this change include low power television, FM translators, small cable, paging, cell phone, and small land-line telephone services. Second, as the fee rate for DBS increased, the cable fee rate decreased for cable operators, particularly small to medium-sized cable companies. Third, as a response to comments and reply comments that the Commission received, the Commission reduced the regulatory fee for AM and FM radio stations in the lowest two tiers. This amounted to a savings of approximately \$75 to \$150 for each radio station.

The decisions made in this *Report and Order* have permitted the Commission to collect its regulatory fees to offset 100% of its budget, as required by statute. Through this *Report and Order*, the Commission sought to assess regulatory fees in a fair and efficient manner within a three-week window in September 2017, taking into consideration that not all regulatees are in the same financial position.
